The average package of garden seed distributed from assorted boxes, contains from $\frac{1}{8}$ to $\frac{3}{8}$ of an ounce of seed. Garden seed package dealers tell us that anything less than a ten-cent package is impossible for 1921, on account of the high price of catalogues and pictured seed containers.

The prices we quote are for full actual weight of seed as indicated. You may order or buy from us in such quantities as you may want down to $\frac{1}{2}$ ounce, and get full weight of quantity ordered.

Cash remittances must accompany all orders. We will prepay postage on orders amounting to \$1.00 or more. Look over our list carefully and send us your orders.
